

SCHOOLGY STUDENT HELP

To access Schoology as a student you will need to use the Schoology App, or visit:

<http://troyschools.schoology.com>

**If you are using the app, make sure you are logging in through the “Troy Schools” domain.*

To log into Schoology, you must use the SAME login information as you use on a district computer. So, before you try to get onto Schoology, it is sometimes helpful to make sure you can log in to a district computer (in the library, teacher’s computer, etc).

Your username for the district computer is:

first initial, middle initial, last name, graduation year

(For example – John Paul Smith, who’s graduating in 2022 would have the UN: jpsmith22)

The first time you log in, your password should be your **STUDENT ID**. (ex:4389472928)

If that doesn’t work, try your username in ALL CAPS. (ex:JPSMITH22)

Then you will be able to log into Schoology with the same username and password!

If you cannot, you may have to ask one of your teachers to fill out a “help desk” ticket for you.
